Our
Future
Health

In partnership with

'If anyone saves a life, it is as if he
saves the lives of all mankind.'

[Quran 5:32]

Join the UK's largest health research programme and
help everyone live longer and healthier lives.

We're bringing together up to 5 million people to
develop new ways to prevent, detect and treat diseases.
Diseases like diabetes, cancer, stroke and dementia.

When you join you will be offered information about your
own health, including a blood pressure check. In the future,
we plan to offer you the chance to learn about your risk of
some diseases.
